STANDING SEAM (CLIC and FALT)  
FINISHING PARTS

Metigla S.R.L. offers its products a period of warranty for their expected functionality. During the guaranteed period the products keep their properties, shape, uniform colour, functionality and essential tehcnical characteristics exposed in the performance statements in accordance with the specifications and warranty conditions of raw materials suppliers.

Metigla S.R.L. guarantees for products from the same order, that the paint coats will not exfoliate, that these will not be perforated by corrosion and in over time the color will have a uniform evolution on surfaces with the same UV rays exposure.

The period of warranty starts from the invoicing date. The warranty is available only when the installation is realized in no more than 30 days from delivery, while the products are stored in covered, ventilated and without humid environment. The buyer must demonstrate fulfillment of these conditions.

## THE CONDITIONS OF ACCORDING THE WARRANTY

The warranty is accorded under the conditions to compliance with the rules and instructions for: transport, handling, storage, assembly and products maintenance.

The warranty is accorded if the products are used under normal environment, temperature and UV rays (altitude below 900 m, distance over 20 km towards the seafront and the absence of corrosive agent generators, like pollution sources in the area).

The warranty does not cover the damages caused by:

1. Improper transportation or storage conditions, the non compliance of handling, assembly and maintenance instructions;
2. Long contact with materials which contain corrosive agents (acids, solvents, bases, etc.) or other materials which can damage the protective coats of the steel sheet (copper, mortar, concrete, soil, water, sand, ash, dust, birds excrement etc.);
3. Temporary or prolonged exposure to temperature above 70<sup>o</sup>;
4. Defective products assembly;
5. Use of improper cutting tools (angle grinder, abrasive disc or any other tools which can cause overheating in the cutting area);
6. Hitting, deforming or subjecting to stresses or loads greater than those permitted by the material or profile type;
7. Extreme weather conditions or other emergency situations.

The average lifetime of the products is 50 years.

## WARRANTY CLAIM

The complains about defects discovered by the beneficiary must be submitted in writing to the registered office of the company and must be accompanied by the original invoice and warranty certificate.

The supplier constates the damages, the buyer being required to accept the products verification by the METIGLA S.R.L authorized persons and after which the manner and time of repair or replacement will be established.

The warranty covers only the value of the damaged materials.

The warranty is applied when the defects are found on at least 5% of the total surface.
